Dear Downey Maganelles,

This is the required awareness review for this FOIA from Austin Evers of American Oversight where he is seeking records related to the National OCS Program Oil and Gas Program and offshore drilling generally which were sent to and from specific state elected officials from Florida (or their offices) and/or industry organizations.

The responsive document consists of an email exchange from Senator Nelson's office that includes a letter sent from the Secretary to Senator McCain regarding the moratorium in the Eastern Gulf of Mexico. Also included is a copy of the FOIA request.

I completed consultation with OS FOIA, and they agree this can be released in its entirety.

There will be additional releases in the future for this FOIA after our remaining search is complete.

Thank you in advance for your time. Please contact me directly with any questions.

V/r,

Natasha
